Dear Mr Ian Avage,

DOMA Constructions are pleased to announce that Practical Completion of the ATO Albury project was reached on Monday 1st October 2012.

On behalf of the project team, I would like to take this opportunity to thank all at Cooke & Dowsett for the outstanding working relationship we have enjoyed throughout the project, the results of which are best demonstrated through the delivery of a high quality end product for the both the developer and tenant.

The standard of workmanship that has been produced by your team would be considered nothing short of industry best practice.

We have thoroughly enjoyed the opportunity to work in partnership with you to achieve this milestone and hope that the opportunity presents itself to do similar in the future.

Please pass on our appreciation to the whole of your project team.

Best Regards,

**ALBANY HEALTH CAMPUS -
COOKE & DOWSETT – REFERENCE**

Cooke & Dowsett were engaged by John Holland to deliver Hydraulic Services for the new Albany Health Campus, a \$156m project.

They have worked in a collaborative manner to deliver this fast tracked project to very high quality and safety standards.

I found Cooke & Dowsett to be professional in their approach proactively offering solutions to issues with a best for project approach.

The onsite management team were technically astute and well versed in hospital build applications. The integration with the hospital maintenance staff during construction and the facility training was extremely beneficial.

Their commitment to local workforce, apprentice, and indigenous engagement has left an ongoing legacy for the community both financially and from a skills perspective.

I would be pleased to provide further comment by phone or e-mail (james.lochhead@jhg.com.au)

Yours faithfully

A handwritten signature in blue ink, appearing to read 'James Lochhead'.

Subject: LEAP Puckapunyal Cooke & Dowsett

Hi Mark,

As you may have heard, NDY, Plenary, ESS and Watpac had a walk through and witness test of the Puckapunyal site on Monday 17/06/13. The feedback from Dario (ESS) in one word was, "Excellent".

ESS are the FM for LEAP over the next 30 years. Dario has inspected every site handed over prior to Pucka.

Special praise goes to Hydraulics for having done a splendid job on the layout of equipment in the Utility Room. Quoting Dario, "Someone has actually put some thought into how we are to maintain this equipment over the next 30 years".

As always it has been a pleasure working with Cooke & Dowsett. The finish line is in sight. Please pass on our Congrats to your team. Well done!

Regards
